Reference: V0680-70, N0508-75, S0317-60, S0355-75

To Whom It May Concern:

Parker compounds V0680-70, N0508-75, S0317-60 and S0355-75 are USDA listed. A chart of these listings is printed in the Parker O-Ring Handbook on page 3-13.

These compounds have been evaluated according to the test procedures contained in the 3-A Sanitary Standards for Multiple Use Rubber and Rubber-Like Materials Used As Product Contact Surfaces in Dairy Equipment, Number 18-03. These compounds are covered by the scope and applicable definitions in these standards including 3-A and E3-A classes 1,2,3,4.

These compounds comply with The Code of Federal Regulations, Title 21, Part 177.2600 and complies with the applicable material and compatibility criteria found in Sections C and D. This is a statement that these compounds comply with FDA extraction requirements as specified under Section 177.2600, Chapter 1, Title 21 under the Federal Food, Drug, and Cosmetic Act.

In summary, V0680-70, N0508-75, S0317-60 and S0355-75 comply to the FDA, USDA, 3-A and E3-A standards to which they have been tested.

If there are any further questions about these certifications you can contact applications engineering at 859-335-5101.

Regards,

Michael Heidt
